

32-0-11 85% SRN

5 Release Times: Instant, Fast, Medium, Slow & Slowest.

Grade: SGN200 &150

TURF BENEFITS

This blend is specially formulated with absolutely no fillers and has 5 different N sources with 5 release times.

PurKote's Adaptive Nutrient Delivery system is driven by temperature allowing for consistent release under excessive water conditions. **PurKote** also reduces loss from leaching with flexible durations from **30 days up to 2 years**.

Poly-S ensures a smooth growth for a healthy, green turf - even when growing conditions are warm and humid, or dry and cold.

ProGuard is exclusively formulated with lower concentrations of two proprietary inhibitors that minimize urea nitrogen loss through volatilization, leaching and denitrification.

DIRECTIONS FOR USE

- Read the entire label before use.
- Apply only as directed during the growing season.
- Irrigate immediately after application, especially during periods of high temperatures (80°F or above). Watering after application will accelerate initial green up and aid the product's penetration into the turf canopy.
- BoydCo encourages responsible use of our products. Help do your part in protecting our rivers and lakes by following label indications and cleaning driveways and walkways after application. Do not apply to frozen ground.

Guaranteed Analysis %

Total Nitrogen	(N) 32.0
6mth Polymer-Coat Urea (Poly-S)	9.4%
4mth Polymer-Coat Urea (Poly-S)	6.0%
3mth Polymer-Coat Urea (PurKote)	5.7%
Sustained Nitrogen from ProGuard Urea	6.1%
	3.0%

MOP	(K2O) 11.0%
-----	-------------

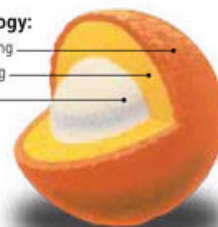

Sulfur	(S) 2.7%
--------	----------

Derived from: Urea, Sustained Nitrogen from ProGuard, Polymer/Sulfur Coated Urea & PurKote Controlled Release & MOP.

* 27.0% Slowly available nitrogen from ProNexx Sustained Nitrogen & Polymer Coated Urea.

Poly-S technology:

Outer polymer coating
Inner sulphur coating
Urea nutrient core

PURKOTE™

ProGuard™
Total Nitrogen

STORAGE AND USE

- Store in a clean, dry place.
- Reseal opened bag by folding top down and securing.
- Use only clean, dry spreaders.
- Do not leave unused product in spreaders

RELEASE TIME:

24 weeks (6 months)
